The Roses received in fine condition. In fact I am surprised that you can ship and land plants the distance you do, in perfect condition. I only regret that I did not order two-year-old roots first, as these last received I am sure will never know they have been moved, unless, perchance, they recognize the odor of salt water. Hereafter two or three-year-olds will be the rule with me, although every one received is alive and growing.

New Haven, Connecticut, July 6, 1910.

E. S. GAYLORD.

Last Sunday I counted 51 buds on my out-door roses which frost has caught—and ever since the middle of June my yard has been a "show" with flowers grown on splendid plants.

The Roses I received from you this spring have given entire satisfaction—in fact we have had Roses all summer and they are still blooming very nicely.

Kansas City, Missouri, August 17, 1910

T. B. MOORE.

I am in receipt today of your Rose catalogue, which is a beauty, and I thank you very much. I shall treasure it and show it to my friends. The roses I bought of you last year were in every way a success, and the finest I ever bought.

Heller's Handsome TREE ROSES

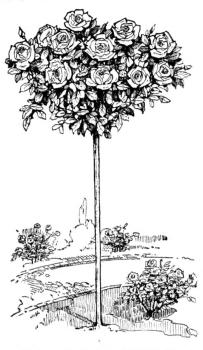

A TREE ROSE, or Rose Tree, crowned with its glorious wealth of beautiful flowers is a sight worth going many miles to see. There is a charm about them impossible to produce with any other plant. In some sections of the country a lawn without several Tree Roses growing upon it is not considered complete.

These Trees are grafted on hardy Rose stalks 3 to 4 feet high, are tree-shaped, and when in full growth and bloom they far surpass all other plants in the garden. Planted on the lawn, or, when used along the walks, driveways, and for similar purposes, the effect

is striking in the extreme.

The splendid collection of Tree Roses noted below has been grown and grafted for us by the most famous grower in Europe, and are warranted to be absolutely true to name, strong and thrifty, and bound to give unalloyed satisfaction.

With all express charges prepaid and safe arrival guaranteed.

Everblooming Tea. Possibly the most satisfactory of all pink Roses as one bush will furnish cut-flowers all summer.

LA GALISSIERE. Hybrid Tea. A lovely pink Rose, destined to become among the most popular for its intrinsic worth. Always in bloom and of an extra-strong habit.

MRS. A BYASS. Hardy Everblooming Tea. A handsome shade of rosy crimson sometimes blotched with paler tints and white. Large flowers borne profusely all summer. KAISERIN AUGUSTA VICTORIA. Hybrid Tea. One of the very best of all white Roses, magnificent in size, shape and fullness. In every way one of the best garden Roses. Hardy, and everblooming.

KEYSTONE. Hardy Climber. A magnificent climber with splendid flowers, deep lemon-yellow in color and very fragrant.

QUEEN BEATRICE. Hybrid Tea. A brilliant pink Rose opening crimson, but turning to exquisite silvery pink. Flowers large and borne in profusion all summer.

#J. B. CLARK. Hybrid Tea. The largest of its class, both in flower and bush—great, massive, deep scarlet Roses shaded with blackish crimson. Bush is extra hardy and grows to great size with splendid bronzy green foliage.

ROBERT HELLER. Hybrid Tea. Without question the grandest yellow Rose grown. Hardy, everblooming and extrathrifty. See also pages 2 and 3.
